

TITLE I PROGRAM IMPROVEMENT SCHOOLS

Until the new school improvement system is in place, schools that were previously identified for program improvement (PI) for failure to make "adequate yearly progress" (AYP) for two or more consecutive years must continue to implement their improvement plans and are subject to the requirements of this policy.

The Governing Board is committed to enabling all district students to meet state academic achievement standards and to narrowing the achievement gap among student groups. To that end, the district shall provide support and assistance to increase student achievement in any school that receives federal Title I funding and has been identified by the California Department of Education as a program improvement (PI) school.

(cf. 6011 - Academic Standards)

(cf. 6162.5 - Student Assessment)

(cf. 6162.51 - State Academic Achievement Tests)

(cf. 6171 - Title I Programs)

Although school improvement plans are still in effect for PI schools, districts are no longer required, because of the repeal of 20 USC 6316 by P.L. 114-95, to (1) offer intradistrict transfers to all students in Title I schools identified for Year 1 PI or beyond or (2) provide supplemental educational services from an approved service provider to eligible students in schools identified for Year 2 PI or beyond.

In addition, although the requirement to provide supplemental educational services was repealed, the CDE has elected to instead require the provision of alternative supports, defined and administered by the district, to eligible students beginning with the 2016-17 school year.

(cf. 0420 - School Plans/Site Councils)

The Superintendent or designee shall ensure that school improvement strategies developed for any PI school are coordinated, aligned, and effectively implemented in accordance with the Board-approved school improvement plan.

(cf. 0420 - School Plans/Site Councils)

(cf. 0460 - Local Control and Accountability Plan)

(cf. 5116.1 - Intradistrict Open Enrollment)

(cf. 6179 - Supplemental Instruction)

Depending on the length of time a district school has been identified for PI, the district shall provide opportunities for student transfers, supplemental educational services, other corrective actions, and/or restructuring in accordance with law.

(cf. 6179 - Supplemental Instruction)

Program Evaluation

The Superintendent or designee shall develop an annual report card that includes the information specified in 20 USC 6311 for each district school and for the district as a whole. The required information may be incorporated into each school's school accountability report card. (20 USC 6311)

(cf. 0510 - School Accountability Report Card)

(cf. 6190 - Evaluation of the Instructional Program)

The report card shall be concise, presented in an understandable and uniform format and, to the extent practicable, in a language that parents/guardians can understand. It shall be made accessible to the public on the district's web site. (20 USC 6311)

The Board and Superintendent or designee also shall review the effectiveness of the actions and activities carried out by PI schools with respect to parental involvement, professional development, and other PI activities. (20 USC 6316)

(cf. 4131 - Staff Development)

(cf. 6020 - Parent Involvement)

As necessary based on the results of these evaluations, the Board may require the Superintendent or designee to review and revise any of the school's reform plans, including the school's Single Plan for Student Achievement, allocate additional resources toward the implementation of the plan, and/or require more frequent monitoring of the school's progress in order to raise student achievement.
